			4" Camo Stabilizer

All Packages come with factory installed accessories and are tuned, test-fired and ready to shoot, except the Boondocks Package.

Target options available in an anodized Black/Blue on only the Liberty and Black/Red on only the Black Ice. Subject to stock availability. Target Colors add \$50.

IBO speed ratings are the industry standard and are calculated by shooting a 350-grain arrow using a 70# bow with a 30" draw. Speeds for The Edge are achieved using a 250-grain arrow shot at 50# with a 28" draw.

Draw length modules are available in 1/2" increments on all models except the Cutter and The Edge.

Performance testing is completed using a Custom Chrono, Heavy Duty ProShop Meter and digital scales (digital scales have a variance of +/- 1%). Speed ratings have been obtained with factory installed brassnock and Hush Kit.

The use of these accessories decreases velocity by 5-8 fps. Mass bow weights are taken with these accessories installed.
