4" Camo Stabilizer		

All Packages come with factory installed accessories and are tuned, test-fired and ready to shoot, except the Boondocks Package.

Target options available in Silver Star on only the Marquis, anodized Black/Blue varigated on only the Liberty and Blue Marble on only the Black Ice. Every Bow comes standard finished in RealTree Hardwoods HD. Optional camouflage patterns for the Marquis, Black Ice and Liberty include RealTree APG HD™ and MAX-4 HD™ as well as Mossy Oak Brand® Brush®, Obsession™ and Treestand®. Subject to stock availability. Target Colors and optional camo, add \$50.

IBO speed ratings are the industry standard and are calculated by shooting a 350-grain arrow using a 70# bow with a 30" draw. Speeds for The Edge are achieved using a 250-grain arrow shot at 50# with a 28" draw.

Draw length modules are available in 1/2" increments on all models except the Cutter and The Edge.

Performance testing is completed using a Custom Chrono, Heavy Duty ProShop Meter and digital scales (digital scales have a variance of +/- 1%). Speed ratings have been obtained with factory installed brass nock and Hush Kit.

The use of these accessories decreases velocity by 5-8 fps. Mass bow weights are taken with these accessories installed.
